## ***Road Commission Director to receive first Transportation Asset Management Award***

Flint, Michigan. ---

**John Daly, Manager-Director of the Genesee County Road Commission has been selected to receive an Individual Achievement Award from the Michigan Transportation Asset Management Council.** He will be recognized at the Awards Luncheon at the Asset Management Conference at Michigan State University in East Lansing on May 19<sup>th</sup>.

The Transportation Asset Management Council established this new awards program to “recognize individuals who have demonstrated leadership and vision and provided outstanding support of asset management and the Asset Management Council, and agencies that have championed the principles of asset management”.

Dr. Daly co-authored the legislation (P.A. 499 of 2002) that defined asset management in Michigan, established the Asset Management Council and gave them their goals and responsibilities. He organized a pilot project in 2001 that demonstrated that collecting data on all roads in Michigan was possible and that the data could be used to assess the condition of the entire road network in Michigan and develop a statewide asset management strategy. He currently serves on a National Science Foundation task force revising the current Transportation Asset Management Guide.

For more information about the Transportation Asset Management Council or this award please contact Carmine Palombo, Chairman of the Transportation Asset Management Council at [palombo@semcog.org](mailto:palombo@semcog.org), or (313) 961-4266.
