## **MDOT Nighttime Maintenance Operations on US-23 Ramps at Torrey Road**

Flint, Michigan. ---

Starting next Monday night, September 18, 2017, MDOT will be closing the on and off ramp at North/Torrey Road exit on northbound US-23. MDOT will also need to close the right lane on US-23 in the area to perform maintenance on the ramps.

The detour for the exit will be to stay on northbound US-23 and take the Thompson Road exit. Come back on southbound US-23 and take the exit for North Road.

The detour for the on ramp will be to take North Road to the ramp for southbound US-23. Then take the exit for Silver Lake Road and come back to northbound US-23.

The closures will start around 8pm and should be open back up each morning at 7am. MDOT anticipates that the work will take about 4 nights and is weather dependent.

If you have any questions, please contact Keith Brown, P.E., MDOT Operations Engineer, at (810) 653-7470.
