NB I-75 closure for culvert and pavement repairs

Mundy Twp., Michigan. ---

The Michigan Department of Transportation (MDOT) will close northbound I-75 from I-475 to US-23 on Friday, May 5 for culvert and pavement repairs. The highway is expected to reopen on Saturday, May 13. Crews will remove the existing pavement, lower the culvert, and replace the pavement after a culvert washout in January of 2020. The repairs also prepare the road for resurfacing later this summer. The posted detour takes drivers from northbound I-475 to westbound I-69. Please contact the Michigan Department of Transportation Davison TSC at (810) 653-7470 if you have questions.
