Signage in the Road Right of Way of Public Roads

Genesee County, Michigan. ---

The Genesee County Road Commission would like to remind the residents and business owners of Genesee County that signs cannot be placed within the right of way of public roads in Genesee County. As primary and general elections approach this year, the problem is becoming even more critical with political signs popping up in the county. While we are glad to see that Genesee County voters are getting involved in this year's elections, we would like to make sure that signs are kept away from the roads. Signs can obstruct the clear vision for vehicles traveling our county roads and additionally, signs that are placed in the road right of way will be removed by the Road Commission for the motoring public's safety and stored at one of our district garages where they may be picked up.

For your safety as well as others, please keep the roads clear of signs and other items in the road right of way.

--- ### ---

Please slow down in work zones, for your family and ours.
